## **HPV Vaccination in Indonesia**

a Health-economic & Comparative Perspective

1. Implementation of decision analytic modelling in the South East Asian region is still limited (this thesis)
2. Pain, discomfort, anxiety and depression are the most experienced symptoms by the HPV-related cancer patients. (this thesis)
3. Cervical cancer prevention, including HPV vaccination and/or screening, reflects cost-effective strategies for Indonesia (this thesis)
4. For a single disease, several types of decision analytic models can be adopted, depending on various aspects including data availability (this thesis)
5. The more realistic the model, more complicated input parameters are needed (this thesis)
6. Decision analytic modeling not only assists budget allocation but also research prioritization (this thesis)
7. “Trust Allah but tie your camel” (Prophet Muhammad [P.B.U.H])
8. “Prepare for the worst, but hope for the best” (Benjamin Disraeli)
9. Unimaginable journeys start in dreams, so don’t be afraid of dreaming
